Design inclusive products with empathy, research and data, matching user needs with business requirements.

Work Experience

March 2019 - Present
Moneyfarm
Product Designer

I have worked on different projects across multiple agile teams, focusing on designing and improving the onboarding and dashboard experience both on web app and iOS and Android app.

Dec 2016 - Sept 2018
Hostmate
Digital Designer

As a digital designer, I was responsible for designing, developing and improving the company website that has now over 1K visitors and more than 20 requests for quotations and contacts every month (with a 40% increase compared to the last year). I was responsible for the creation of marketing assets, social media post and newsletters.
